Surface Activator

Surface Activator is a degreaser and adhesion promoter. Improves adhesion on non porous substrates and raises final strength of MS and SMX based sealants. Suitable for powder coated and anodised aluminum profiles.

Applications:

- Degreasing surfaces in sealant- or bonding applications.
- Improving the adhesion on powder coated aluminum (window profiles), both for regular as for textured powder coatings.
- Improving the adhesion on various plastics: PVC, ABS, PP

Product Code	Description	Bottle Size (mL)	Packaging Unit
101638	Surface activator	500	1

Ramsauer 120 Silicone

120 Neutral is particularly suitable for sealing insulating glass in timber frames with water dilutable paint systems, as well as for sealing connection joints. Adheres well without primer, compatible with paint coats, abrasion-free. Tested to DIN 18545, Part 2, Group E and EN ISO 11600, Class G25LM. In accordance with DIN 18540, Part 1. Fulfills the requirements of LEED and DGNB.

Product Code	Description	Colour	Size (mL)	Packaging Unit
1100301	Neutral crosslinking silicone	transparent	310	20
1100302	Neutral crosslinking silicone	white	310	20

Silirub HT°-A

Silirub HT°-A is an elastic, single component engineering sealant based on silicone which withstands very high temperatures.

Benefits:

Excellent adhesion on metals, glass and glazed substrates

Typical acetic smell

Permanently elastic after curing.

Temperature resistance up to 285°C

Application:

Sealing of heating installations. - Sealing in pumps and engines. - All sealing applications that require high temperature resistance.

Product Code	Description	Colour	Size (mL)	Packaging Unit
108265	Heat resistant Silicon	Black	310	12

Firecryl FR

Firecryl FR is a fire-resistant, smoke-tight, with heat load intumescent plasto-elastic sealant based on acrylic dispersion.

Features & Benefits:

- Prevents the passage of fire and smoke
- Intumesces when exposed to temperatures higher than 120°C
- Can be painted over after curing
- Very easy to apply
- Permanently elastic after curing
- Colourfast and waterproof after curing
- Very good adhesion on many porous materials

Applications:

- Fire-resistant and smoke-tight indoor applications.
- As part of the 'Soudal Fire Range' assortment for penetration seals and joints.
- Sealing of fire retardant joints in walls and ceiling.
- Fire-restardant filling of cracks in concrete and plasterwork.
- Applications where the sealant needs to be overpainted with water based paints and varnishes.

Product Code	Description	Colour	Volume (ml)	Packaging Unit

Isocell Uni MS Adhesive Sealant

UV-resistant, permanently elastic, water resistant MS-Polymer based sealant that can be painted over. For sealing and bonding a wide variety of materials throughout the house, indoors and outdoors such as window joints.

Product advantages:

- Permanently elastic
- Temperature resistance: -40° to +90°
- Non-corrosive to metals
- Free from solvents, silicon and isocyanate
- Water & UV resistant
- Joint filling and non foaming
- Workable on damp substrates

Soudal Pro Expanding Foam Gun Grade

Soudal Pro Expanding Foam Gun Grade is a one-component, self-expanding, ready-to-use polyurethane foam supplied in a threaded canister for application with a foam gun. It contains HCFC- and CFC-free propellants that are environmentally friendly and do not harm the ozone layer. Equipped with Duravalve technology, the product maintains optimal yield throughout its shelf life, even when stored or transported horizontally.

The foam is ideal for installing window and door frames, filling gaps and cavities, and sealing openings in roof structures. It can also be used to create acoustic barriers and enhance thermal insulation in refrigeration and cooling systems.

Soudal Flexible Insulation Foam – Gun Grade

Flexible Insulation Expanding Foam Gun Grade is a one-component, self-expanding, ready to use polyurethane foam with elastic properties, which allow the foam to follow the movement of the joint and keep its insulation properties for many years. Because of the Duravalve, the optimal yield remains over the entire shelf life, even when stored or transported lying down. Flexible Insulation Expanding Foam Gun is filled with HCFC- and CFC-free propellants which are not harmful for the ozone layer.

Features & Benefits

- 3 times more flexible than standard PU foam
- Airtight (see IFT-report)
- Water Vapour Open
- Excellent stability (no shrinkage or post-expansion)
- High filling capacity
- Good adhesion on all surfaces (except PE, PP and PTFE).
- High insulation value, thermal and acoustic

Gentle cleaner for coloured (foiled) and white uPVC surfaces. The cleaner has an antistatic property that makes the surface dirt repellent.

Product features:

- Cleans oil and grease
- Non-dissolving
- Water based
- Phosphate free
- Reduces recontamination
- Biodegradable

Note: Not suitable for water-based paint surfaces.

blaugelb Hardware Fitting Spray

A special maintenance and care agent for all movable fitting parts and the mechanics on windows, doors, gates and garages. The hardware spray effectively protects against dirt and corrosion, extends the service life of the hardware components and reduces the risk of consequential damage.

Product advantages:

- Effectively protects against wear and dirt
- Loosens stuck mechanisms
- Does not attach paints and PMMA films
- Has an antistatic effect
- Is free of resin and acids, gentle on metal surfaces
- Silicone-free
- Has a permanent corrosion-protecting effect
- No run-off from mechanical parts
- Resistant to salt water

WinMax Flex

WinMax Specialty clamping tool for window installation.

Product Features:

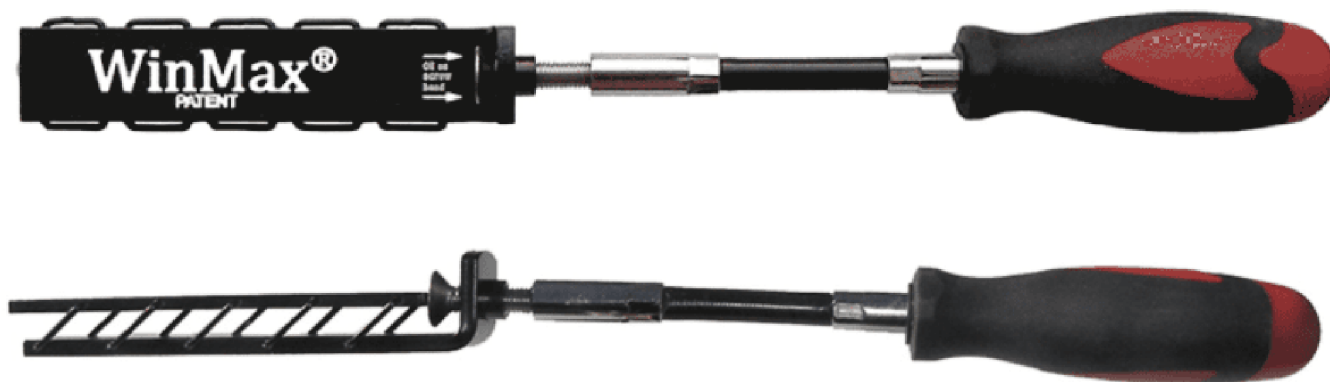

-Maximum load: 50kg

-Joint width 9 mm - 22 mm

-WinMax protects the component and also the wall, as the tool can be easily and safely removed by simply turning the handle when the work is finished.

-The flexible shaft makes it possible to work even in inaccessible places.

-By simply turning the handle, the clamping surfaces expand, creating a high pressure between the window/door and the masonry. Now it is child's play to install the component with millimeter precision.

STROXX Microfibre Cleaning Wipes

The STROXX microfibre cloths are the perfect helper for everyday life. The static microfibre structure of the cloths allows for 3 times greater absorption of dirt, dust, oils and greases than is the case with conventional cotton cloths.

Product Code	Description	Packaging Unit
9066538	Microfibre cloths	4
